Kemiko, the Path to Beautiful Decorative Concrete

'New labels, new look, new product system guide, same excellence'

Kemiko takes fresh steps in decorative concrete stain processing with outstanding new products, and an easy selection guide designed to give optimal results for a variety of needs.

Epmar Corporation, Kemiko's manufacturer, has created a full line of innovative product choices that include acid stains, polymer stains, cleaners, sealers, waxes, and strippers. A simple path chart makes it a snap for applicators to plot the proper course for specific interior or exterior finishes. The path to concrete surfaces that are lustrous, glossy, natural, or matte for commercial or residential needs, is easy and straight-forward.

Since 1930, Kemiko has offered unsurpassed quality in concrete stains and topcoats. Kemiko brings decorative concrete into the spotlight as today's practical and durable means to beautiful concrete flooring.
