Kemiko Concrete Stains

'Your Luxurious Floors Start with Kemiko'

Transform an ordinary concrete slab with *Kemiko Stone Tone Stains* into the look of expensive flooring at a fraction of the cost. Low cost, low maintenance, versatility, and durability add up to a perfectly luxurious look for your floors.

Unlike paint, *Kemiko Stains* react differently with each concrete slab, creating wonderful multi-hued color variations for a subtle and dramatic aged look. After application, the earthy colors take on the look of glazed stone, marble, or old-world tile.

Your beautifully stained floor is a welcomed change from carpets and the allergies they tend to cause. You'll find the maintenance-free aspect is an added bonus to an elegant and economical Kemiko Stained floor. Simply damp mop as needed!

Kemiko Stone Tone Stains are the choice for interior or exterior concrete projects and are available in eight beautiful colors. Use of Kemiko Stone Tone Wax or Sealer enhances the color and effect, as well as adding protection to the surface of the floor.
